NEW MOON IN SCORPIO

Before we get into the **New Moon**, there's a couple of transits we should be aware of that will **influence** this moon phase:

Jupiter & Pluto in Capricorn Conjunction (Nov. 12)

- Jupiter & Pluto meet up at 22 degrees, a critical degree with double Capricorn influence, there's expansive energy to transform our structures, our inner authority. It's imperative that we focus more deeply on our inner core as this energy will be reflected in our external environment as well.

NEW MOON IN SCORPIO

Mars in Aries goes Direct (Nov. 13)

- **Mars** stations direct in **Aries** at 15 degrees, a Gemini degree, which calls us to tune into our **mental states**. It's a good time to check-in on the thoughts we've been having with **our desires** and be **mindful** about how we take **action**. **Aries** is the **initiator** and with **Mars** at home there, the drive is **high**.

Move in **integrity** and move with **intention**. Allow the **energy bursts** to be **channeled** productively.

NEW MOON IN SCORPIO

Hang on tight for this **SUPER** new moon! A **Super New Moon** is a New Moon that is very close to Earth.

We had a series of **Super Full Moons** at the beginning of the year and we are having out last of three Super New Moons (*September & October had Super New Moons*) on this day.

New moons bring new beginnings and also close out the last new moon phase, the **Libra New Moon** on **Oct. 16**.

NEW MOON IN SCORPIO

With the sun and moon both in **Scorpio**, the sign of sex, rebirth, psychology and legacies, we'll be diving further **beneath the surface** to uncover what lies there as the dark moon airs out the shadow-side of things.

No need to fear!

There is **beauty** in the darkness. There is **beauty** in the **rumble** of destruction. What has been left in **shambles** reveals plenty of potential.

NEW MOON IN SCORPIO

Sun conjunct Moon (Scorpio)

- With the sun joined together with the moon in Scorpio, truths will be revealed and what has been in hiding will be illuminated. Allow yourself to investigate what comes up. Allow yourself to be vulnerable. Allow it to humble you.

Sun & Moon sextile Pluto & Jupiter (Capricorn)

- The art of *Kintsugi* comes to mind when I think of **Scorpio** and **Capricorn** energy combined and even more so with this harmonizing aspect. The mended cracks share a unique story of how we got to this moment when you step back. There's wisdom gained when you see the big picture.

23 degrees = Aquarius degree (freedom, originality, society/ community, social media, sudden/shocking)

NEW MOON IN SCORPIO

Venus in Libra square Pluto & Jupiter in Capricorn

- See things for what they really are in your **relations**. Apply proper **boundaries** that align with your **personal values**. Move in **integrity** focusing on the concrete facts, not falling for deceptive fluff stories ** (*there's a connection to Neptune with the moon*). Be **fair** and **non-judgmental**. We are, after all, **reflections** of each other.

***Note: we are still in the post-shadow of Mercury Retrograde until Nov. 19 and Mars has just went direct. Collect yourself first.*

22 degrees = Capricorn Degree (structures, authority, legacy, concrete, bones, business, limitations)

NEW MOON IN SCORPIO

Mercury in Scorpio to **Oppose** Uranus in Taurus

Just as a **heads up** since we are still in the post-shadow period of **Mercury Retrograde until Nov. 19th**, Mercury is meeting up with **Uranus in Taurus again**. There will be a review of sorts from when **Mercury** was at this point back on **Oct. 6** when it was in the pre-shadow and **Oct. 20** when it was in retrograde.

8 degrees = Scorpio Degree (regeneration, endings, passion, mystery)

NEW MOON IN SCORPIO

- What **part** of your **shadow** is present today? The judge? The victim? The child?
- What is this **part** of you wanting you to do?
- Are you willing to hear this part out gently with **love** and **care**?
- How can you start to **transform/transmute** the **wound** this part is speaking from?

NEW MOON IN SCORPIO

- Are you giving proper **attention/ devotion** to your **body, mind** and **spirit**?
- What has been the **hardest lesson** you learned this year?
- How can you use the **tools** you've gained to start to **integrate** that lesson into **wisdom**?
- How can you free yourself of the **burdens** of **shame, guilt, fear,** and/or **anger**?

NEW MOON IN SCORPIO

- What **new** or **reacquainted** desires/passions have you **discovered**?
- How can you begin to plan to take **action** to **incorporate** this **passion(s)** into your daily life?
- If this passion is a project, how can you start to **organize** it to meet **practical** goals and milestones?
- How can you continue to **show up** for **yourself** and current **responsibilities** as you **pursue** these passions/desires?

NEW MOON IN SCORPIO

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

If you feel called, please share, save, and like this post!

My wish is that this helps you navigate the next 2 weeks and the rest of the year with more clarity and self-awareness.
