

LUNAR ECLIPSE IN SAGITTARUS

journal prompts

LUNAR ECLIPSE IN SAGITTARIUS

A **lunar eclipse** occurs when the **Sun, Moon,** and **Earth align** and **Earth's shadow** falls on the **Moon**. It marks a time of **unconscious feelings** surfacing to be **witnessed**, along with **profound changes**, and **endings**. The energy lingers for **6 months** when the **next eclipses** happen.

Sagittarius, ruled by **Jupiter**, represents adventure, wisdom, higher consciousness, faith, and beliefs. **Gemini** ruled by **Mercury**, represents how we communicate, our thoughts/ideas, quick wit, and curiosity.

With the **Sun** in **Gemini** and the **Moon** in **Sagittarius**, we'll be seeing things in life from a higher perspective.

5° = Leo deg (*spotlight, confidence, creativity, leadership*)

LUNAR ECLIPSE IN SAGITTARIUS

Moon in Sagittarius square Jupiter in Pisces

- We're being asked to **trust** in a **higher power**, trusting we are being led to a space of **true fulfillment** but we have to have **faith** in ourselves, to trust ourselves to be and do things **bigger**. Of course, there's no need to go **overboard**. Allow your **intuition** to guide you forward and take the **next best step** forward. Overall, this is a transit of **feel-good** energy, just beware of coming across as **arrogant** and **self-righteous**.

Make the **intention** to **grow** even as the unknown **intimidates** you.

1° = Aries Degree (initiate, impulse, inspired action, haste)

LUNAR ECLIPSE IN SAGITTARUS

Venus in Gemini Square Neptune in Pisces

- It's perfectly normal to want to **indulge** in comfort as you make your way through this energy, but there is a need for **established boundaries** to ensure you don't get caught in the **fog** of **Neptune**. **Discernment** is critical as usual when it comes to any relationships you're entertaining. Tap into your **intuition** to see **behind the veil** that may be present. Get to know people, but not everyone or everything **deserves** your energy. Be mindful of the exchanges.

Great time to **daydream** & be **creative**.

22° = Capricorn Degree (*CRITICAL: boundaries, limits, tough love*)

LUNAR ECLIPSE IN SAGITTARUS

Mercury in Gemini conjunct Venus in Gemini

- On the 29th, **Mercury** & **Venus** will conjunct exactly. We may have **ideas and insights** that come in **quickly** and **fluidly** that will help us in our ventures. At a Pisces degree, you may receive the downloads in your **dreams**, including **daydreams**, **by** the water or while **in** water (*showers count*) and these messages might be a little **elusive** and need **deciphering**.

Be patient, stay curious, and open to **receive** what you **need**.

24° = Pisces Degree (dreams, mystical, spiritual, illusion)

LUNAR ECLIPSE IN SAGITTARUS

Saturn in Aquarius square Uranus in Taurus

- **Saturn** and **Uranus** have been in a close square **all year**. This is the **second of three** exact squares they will make. With them squaring off, there's an **energy** of wanting to **change** but **stubbornly** wanting to keep with **routine**. How can we be more **flexible** and **comfortable** with the **external changes** we are facing? Each exact square is kind of a **checkpoint** to see **what's been working** and **what hasn't**. Squares are beneficial if you are willing to **pivot** and **get creative** instead of remaining **stagnant**.

12° = *Pisces Degree (deception, illusion, spirit, escapism)*

LUNAR ECLIPSE IN SAGITTARUS

NOTE:

Saturn went retrograde in the sign of **Aquarius** on May 23rd until October 10th. During this time, we'll be reviewing themes around limitations, restrictions, structure, and responsibility in society, on the internet, in friendship circles/social groups, and humanitarian issues on a personal and global level.

(Check to see where you have Aquarius in your birth chart for the themes)

LUNAR ECLIPSE IN SAGITTARUS

- Where in my life have I been **hesitating** to make **necessary** changes that would move me forward?
- What is **causing** me to **hesitate** and why?
- How can I see this moment of **expansion** as **exciting** and **rewarding** instead of **daunting**?
- How can I **adjust** my **consumption** levels to encourage me to **more present** in my life?

LUNAR ECLIPSE IN SAGITTARUS

- What **indulgences/addictions** need to be released so that I can live a more full life, to fulfill my dreams?
- How have I given **too much** in my relationships in the past? How am I working on **changing** this **pattern**?

AFFIRMATION:

I attract people and things that are in full alignment with my highest self. I am free to expand my experiences and trust that I am wise enough to recognize old toxic patterns.

LUNAR ECLIPSE IN SAGITTARUS

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

If you feel called, please share, save, and like this post!

My wish is that this helps you navigate the next 6 months and the rest of the year with more clarity and self-awareness.

Additional Message

LUNAR ECLIPSE IN SAGITTARIUS

SOMETHING'S BREWING

Manifestation takes time. Just because you can not see results at this very moment does not mean they're not manifesting in the background. Additionally, this card may symbolize starting something new that requires you to go through the trials and tribulations.

DIRECTION

Direction or redirection? When this card appears, you may be considering a new career path/business venture or new relationships; explore your options before making a decision. Additionally, this can mean possible relocation or the need to change direction.

LUNAR ECLIPSE IN SAGITTARUS

Additional Message:

During a lunar eclipse, we can expect things to **suddenly end** as an act of **divine intervention**. There's been action going on **behind the scenes** that we haven't been made aware of yet. With this lunar eclipse, it will become **clear** what needs to **change** and what you need to **shift** your **focus** on.

It's a time where you will start to see what **big step** you'll need to take, what **project** you need to start **investing more energy** in as we approach the Solar Eclipse and during Mercury Retrograde. It's time to **explore your options** and **shoot your shot** with confidence.

Start now and tweak as you go.
