NEW MOON IN CANCER

On July 9th, we'll be experiencing the **New Moon in Cancer** at 18°, a *critical* degree. When the **Sun** and **Moon** meet in **Cancer**, we are focusing on our **emotional wellness, family, home, our roots & ancestry**, the **women** in our lives & the **feminine/maternal** energy *within* us. The moon is at home in **Cancer** as it rules the sign.

With the **New Moon** happening at a *critical degree*, we'll be taking **huge** steps that are necessary for our emotional growth/maturity. **Our emotional body is just as important as our physical body.** Tend to it.

18° = *Virgo deg (CRITICAL: analyze, the details, work, health)*

NEW MOON IN CANCER

Moon in Cancer trine Neptune RX in Pisces

- **Neptune** went retrograde on **June 25th**, right after the **Full Moon in Capricorn**. We've been reviewing things that may have been **unclear** until now. Meeting in a harmonious aspect with the **Moon**, we are going to feel more **creative** so allow yourself some time to create. Also, we're more in tune with our **intuition** and having vivid **dreams**, even insights from our **daydreams**.

Take time to write down or record what comes through during this time as it can be helpful to **spark** the next steps you've been seeking answers for.

23° = Aquarius Deg. (separation, genius, sudden, future-minded)

NEW MOON IN CANCER

Moon in Cancer sextile Uranus in Taurus

- With this energy, it's a great time to try something **new**, do something in a **new way**. Shake up your routine a bit to see things from a **new perspective**. Move your body as this type of **restless energy** is a great **arouser** to get moving. **Energy in motion = emotion.**

At a **Taurus degree**, you could be changing the way you view things you **value** (*including yourself*), **cleaning** out your fridge to make room for groceries, or **invest** in a resource that will help you with your **finances/revenue**.

14° =Taurus Deg. (*values, worth, finances, income, possession*)

NEW MOON IN CANCER

Venus in Leo square Uranus in Taurus

- Don't start any **unnecessary arguments** just because you are bored and **seeking attention**. If there's something you have needed to get off your chest, do so in a constructive manner and with love.

This is a great time to see how you can add some **flexibility** into your relationships (*romantic, friendships, familial, business, etc*). Heavy on the Taurean/Venus energy, it is wise **not** to **overspend**.

Don't have your bank account yelling at you!

14°= Taurus Deg. (*values, worth, finances, income, possession*)

NEW MOON IN CANCER

Venus in Leo conjunct Mars in Leo

- These two will be exact **July 13th** but are within the degree of influence. This is an *intense* and *arousing* aspect that should be **handled with care** since Venus & Mars will be **squaring Uranus in Taurus** and **opposing Saturn RX in Aquarius**. The ego is **frustrated** as it faces parts of itself it would rather not see. It's going to be important to take time to **collect yourself** and examine what is the **trigger** and less focus on *who* did the **triggering**.

Again, beware of arguments.

19° = *Libra Deg. (justice, balance, partnership, indecisiveness)*

NEW MOON IN CANCER

Neptune RX in Pisces sextile Pluto RX in Capricorn

- It's **past** time to let things **dissolve** and **be destroyed**. Allow what is leaving to go without trying to hold on to old concepts/structures. **Neptune** wants us to **dream up new ways of living** and **Pluto** is willing to work on clearing the way through **destruction** whether you want it to or not.

These planets speak to **societal changes** more than on an individual level, but if you have personal planets near them, you will feel the effects and will be urged to make **respond** to the energies present.

23° = Aquarius Degree (future-focused, flash of insight, genius)

NEW MOON IN CANCER

- What has been **upsetting/irritating** me in the last few days? Am I seeing a **pattern** that needs to end?
- Where do I need better **boundaries** in my close relationships, especially **familial** ties?
- Are there any **tough discussions** I need to have with those I love? *(Write a letter to them. You don't have to give it to them, but it will help you to get the impulsive feelings out first.)*

NEW MOON IN CANCER

- How am I feeling in my **emotional body** at this moment? *Close your eyes & do a body scan, head to toe.*
- How can I **invest** more wisely with my **finances** and my energy/resources?
- Where do I need to be more **flexible** in my life?

AFFIRMATION:

My heart knows the way forward. I trust that I am being guided to do what is best for me and my highest good. I am seeing clearly who & what is for me. I begin anew.

NEW MOON IN CANCER

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

If you feel called, please share, save, and like this post!

My wish is that this helps you navigate the next 6 months and the rest of the year with more clarity and self-awareness.
