# NEW MOON IN TAURUS

---

**Taurus**, ruled by **Venus**, the planet of love, beauty, values, finance, and relationships, is the sign of this **New Moon**. A time of **new beginnings & insights**.

When the **Sun** and **Moon** meet in Taurus, we are focusing on what we **appreciate and value** in the **material realm**, including **within** ourselves.

How can we **invest** more into learning about our **self-worth** and what we claim to **possess** in this lifetime? Do you feel that you **own** your **feelings**, your **mind**, your **desires**, your **body**, your **experiences**?

21° = Aquarius deg ( individualism, innovator, freedom, detach )

Sun/Moon in Taurus **sextile** Neptune in Pisces

**Relax your mind.** Insights come in when our minds are *at ease, at peace*. You don't need to try to make sense of what is coming up right now. Don't **limit yourself** to the **barriers of logic and current reality**. Invest in your spirit today, dive into what **spirituality** means and looks like to you. Also, be careful of **energy vampires**, both in **physical** and **internet** spaces. People may be attracted to your light and it's up to you to **discern** what and how much you are able to **give** of yourself at this time.

**No need to be a martyr for love.**

22° = Capricorn Degree (CRITICAL: longevity, endurance, reliable)

## Moon in Taurus Trine Pluto RX in Capricorn

No fluff here, **intimacy** and **vulnerability** are valued with this aspect. Take advantage of this energy to get past the **superficial** and see the **beauty of being raw** and open with those close to you, those that **feel** like home. This will allow you to **deepen** the connections you **value** and **reconnect** those connections that may have been fizzing out.

Be sure to be mindful of any obsessive behaviors. Allow things to flow naturally, and remember:

## Mars in Cancer sextile Uranus in Taurus

**Mars** is not happy in the sign of **Cancer** as the **fire** in the warrior is **watered down**, more **emotionally driven**. **Uranus** is also not happy in **Taurus** as it wants to *shake things up* and **Taurus** is a **grounded** sign and loves **practicality**.

**Mars** and **Uranus** together make us feel **restless** and **impatient**. This energy can be useful in **creating change** in your life and routines as you'll gain **new insights** into what can help you feel **supported** emotionally and free to roam.

Create new **containers of safety** to express new parts of yourself.

11° = Aquarius Degree ( *future-focused, flash of insight, unique* )

## Mercury in Gemini **trine** Saturn in Aquarius

Both planets at home in these signs *amplify* the energy between them. **Time to strategize.** Get those **ideas** moving, grab some paper or a notebook, and creating **new structures** for those **stagnant** projects or new projects, and **get organized.**

It's a great time to talk with **friends/colleagues** or involve yourself with an **online community** that can help you move forward with the **missing pieces** to your puzzle. You'll be able to see things with more **clarity** and **discard** what is no longer useful/helpful.

13° = Aries Degree (*initiate, pioneer, bravery, sharpness, the first*)

# NEW MOON IN TAURUS

- What are my core values? What do I no longer resonate with?
- How can I improve my relationship & enforce necessary boundaries with personal resources (*time, energy, knowledge, money, possessions*)?
- In what ways am I still sleeping on myself? How can I create a space for myself to be my unique self?
- Who truly supports me in my journey? What are their roles in my life & how can I sustain/deepen this connection?

# NEW MOON IN TAURUS

---

- What goals do I have for the next quarter of this year? Make a vision board, grab some affirmations!
- How can I revamp my daily routines to support me more in this new season of life?
- What am I currently being called to learn more about?

## **AFFIRMATION:**

I do not need the approval of others, especially those who do not see nor value my worth. I am surrounded by support.

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

**If you feel called, please share, save, and like this post!**

My wish is that this helps you navigate the next 2 weeks and the rest of the year with more clarity and self-awareness.

## Additional Message:

The energy from **Mercury** and **Saturn** along with the **Sun and Moon** meeting up with **Neptune** is shining strongly here! It's a time of *focusing within* so that we can **align** with the **people** and **environments** that will be helpful for us as we move forward.

Do not **follow** the crowd. **Get quiet and still**. Listen to your **inner wisdom** so you hear, feel, and see where you are being guided. Only then can you be **connected** with the appropriate resources.

Also, *consistency* doesn't equal *constancy*.
