# NEW MOON IN CAPRICORN

---

With the **Sun** and **Moon**, the **luminaries**, in **Capricorn**, the sign of **tradition**, **legacy**, **commitment**, **self-mastery**, and **delayed gratification**, it's time to take a serious look at what we are determined to accomplish, how we go about grounding out ambitions, and the reputation that we have in our public lives.

Basically, are you chasing the goals & material wealth in a way that is **aligned** with whom you want to become known for? This is a time to **plant the seeds** for what you plan to bring into **physical manifestation**. Take stock of the evidence showing what you **truly** desire.

## Sun and Moon in Capricorn conjunct Pluto

Anytime personal signs are in aspect to an outer planet like **Pluto**, the planet of transformation, death/rebirth, what lies beneath the surface, you can expect a **huge upheaval** in the energy. **Pluto** is helping **bring to the surface** anything we have tried to **suppress** in regards to our **wants and needs**, our **identity**, and our **innermost feelings** about what we are currently **striving to accomplish** at this time. It may be time to **re-examine** how we are moving to allow ourselves to find true fulfillment and self-mastery.

## Mars in Taurus square Saturn in Aquarius

**Mars** is finally in Taurus and is already **squaring** up with **Saturn *again*** but in fixed signs. No one wants to budge, but what is going to be **necessary** to really **solidify the foundation** you've been working on since last year? **Saturn in Aquarius** wants us to **detach** from what has always been to bring **new freedom in our structures** and **Mars in Taurus** wants us to take steady action on getting clear and **grounded** in our values. With these fixed signs, there's no rush, but you need to be in it for the long haul and be future-oriented.

## Venus in Capricorn trine Uranus in Taurus

**Venus**, the Goddess of beauty and pleasure, is in serious **Capricorn** and she is meeting up with **Uranus**, the planet of chaos, sudden insights, and shock, in **Taurus**. Venus is serious about **her values and her finances**. She knows what she wants and is determined to go get it. **Uranus** is bringing a necessary **jolt** to open our eyes to our current pursuits in **relationships and finances**.

Are you seeing things in a different, but more clear and objective way? Are things adding up now? Are you feeling more liberated with this confirmation?

## Uranus in Taurus goes DIRECT

**Uranus** has been **retrograde** since **August 15** and will be conjoining with **Mars** who has newly entered Taurus. The two dance together creating some **shocking** reveals of what may have been hush-hush since August. **Uranus** brings grounded electricity (*like a hanging live wire...*) and **Mars** brings the punch. See what's coming up for analysis and see how this affects how you move forward in your endeavors.

Be open to surprises and plot twists, of course.
