# NEW MOON IN PISCES

---

**Pisces** is traditionally ruled by **Jupiter**, the planet of **expansion & philosophy**, & in modern Astrology, it is ruled by **Neptune**, the planet of **disillusion & spirituality**. With this being the last New Moon of the astrological year (*the new year begins with Spring*), it will be supporting us as we prepare for the new energy that will be arriving with the **New Moon In Aries** next month.

When the **Sun** is **conjunct Moon** in **Pisces**, we are more receptive to **unconditional love** but also can be a victim to **deception/ self-sabotage** since Pisces **dissolves** boundaries. Use discernment.

## Sun/Moon in Pisces conjunct Neptune in Pisces

- New moons are for **new beginnings**. The **Sun** met up with **Neptune** on **3/10** and now, the moon has joined the party. Our **innermost wants and needs** are aligning with the **spiritual, boundless magic** of Neptune. This energy is dreamy and truly, the sky's the limit. **We're more in tune with our highest selves**. Allow yourself to dream of a new way of being. You won't need to make any concrete decisions yet, but with the sun and moon at an Aquarius degree, think about the type of **freedom** you desire and the ways you can **contribute** to the betterment of humanity being uniquely you.

*23° = Aquarius Degree (humanitarian, society, unique, visionary)*

## Venus in Pisces conjunct Neptune in Pisces

- **Venus** dances with **Neptune** today. With Neptune at home and Venus loving the sign of Pisces, this is a great time to **speak from the heart and/or listen to someone's truth** today. **Hearts are wide open**, sit with what comes up. **No judgment here**. At a Scorpio degree, there's bound to be deep, intimate, and necessary conversations being had. Come with an **open mind** and take things with a **light heart**. It's not a time to be rigid. **Go with the flow.**

*20° = Scorpio Degree (regeneration, transmutation, intimacy, other people's resources- energy/time/money)*

## Mars in Gemini Trine Saturn in Aquarius

- **Mars** won't meet up with **Saturn until 3/19**, but since it will occur as the moon approaches the **First Quarter**, the halfway point to the Full Moon. There's light being shed on how we can **communicate and delegate** as we head to the Astrological New Year, **Spring Equinox** the next day, 3/20.

Your words are spells so **be clear**, speak with **intention** and **integrity**, and speak with **care**.

Heavy manifestation power. Use wisely.

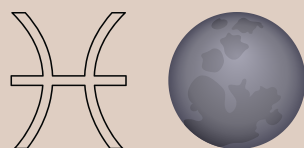

9°= *Sagittarius Degree (truth, philosophy, foreign, exploration, travel)*

- What **downloads/messages** have been on **repeat** in my mind these **last 2 weeks**?
- What has been **tugging** at your heartstrings? How has your heart been **breaking open to expand**?
- What is your definition of "**freedom**" and how can you cultivate this in your life? How does it **feel in your body** when you define it?
- What is the **biggest, wildest dream** you have?  
*Challenge yourself to write it down no matter how "impossible" it seems.*

- What are you **putting your energy** towards as we enter fresh new energy, a new season?
- Take a moment to reflect on at least (3) **lessons** and/or **themes** you have **overcome/witnessed** this past year. How have you grown? What needs tending to?

*It is absolutely okay to be struggling with something even after a year or more. Growth & healing is not linear.*

## **AFFIRMATION:**

I am whole, I am complete. I do not need the approval or acceptance of others as I am cultivating my dream life. I trust myself.

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.
