LUNAR ECLIPSE IN GEMINI

Welcome to ECLIPSE SEASON!

This is the first lunar eclipse in Gemini since **Nov. 28, 2012**.

Interestingly enough, this eclipse is happening 2 degrees away from the one in **2012** (*it was at 6 deg*) so there may be some topics from that year coming back up for inspection.

This and the Solar Eclipse 2 weeks are much **more powerful** than regular full and new moons as they will set the tone for the **next 6 months** as opposed to the next month.

LUNAR ECLIPSE IN GEMINI

With the sun in **Sagittarius**, ruled by *abundant* and *expansive* **Jupiter** and the moon in the sign of **Gemini**, ruled by *curious* and *quick-witted* **Mercury**, there'll be light shined (*the sun shining on the moon*) on how we **think/communicate, travel**, the concept of **duality** and the condition of our **nervous system**.

Sagittarius and **Gemini** are opposites, fire and air, wisdom and knowledge, long-distance travel and your neighborhood. With all of these keywords in mind, there's an **ending** happening and we will be *reaping the seeds we sowed* from the **New Moon in Gemini** back on **May 22**.

NEPTUNE IN PISCES GOES DIRECT (Nov. 28)

After being retrograde since **June 23** at 21° (*Sagittarius deg*), it is finally going direct at 18° Neptune is at home in the sign of **Pisces** and is known to represent spirituality, the subconscious, illusion, places of confinement/isolation, and addiction.

Now that it is direct, it is important to review what has been revealed to you over the **last 5 months** in terms of your **faith** and how much you have **grown spiritually**. You will need this **wisdom** as discernment ending the year.

18 ° = *Virgo deg. (CRITICAL*)*: perfection, digestive health, service

MERCURY IN SCORPIO (27°) SEXTILE JUPITER & SATURN (26°)

Mercury and **Jupiter** met up in an exact sextile as Neptune when direct at **25°** and are still in contact with each other. With **Mercury in Scorpio**, communication has been focused on the truth of the matter at hand, *no surface-level conversation*. **Jupiter** is not comfortable in **Capricorn** so what has come up may not have been comfortable, but they have been necessary and will bare **meaningful** fruits soon.

27° = Gemini deg (neighbors, local, storytelling, vehicles, news)

VENUS IN SCORPIO (10°) OPPOSE URANUS IN TAURUS (7°)

Venus in Scorpio may want to explore **taboo subjects** and **Uranus in Taurus** may want to **shake things up** in relationships and the mundane everyday life. It's important to be **open-minded** and allow for **exploration**.

Is there something you've wanted to do for a long time but haven't? If its something with your partner, it's important to have the conversation and come to a common ground. You might be **surprised** by their reaction.

11 degrees = Aquarius degree (sudden, unexpected, shocking, community)

LUNAR ECLIPSE IN GEMINI

LUNAR ECLIPSE IN GEMINI

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

If you feel called, please share, save, and like this post!

My wish is that this helps you navigate the next 2 weeks and the rest of the year with more clarity and self-awareness.
