Introducing Astrology in the Interior Design process, to me, is truly liberating as an Astrologer & Designer. Guiding women & mothers using their unique energy aids them in creating a home that supports them at their core as well as physically.

Astrology shows how planetary bodies have an influence on our experience here on Earth

Seeing the importance of HOME in our current time and the urgency to come back HOME to ourselves revealed a gap needing a bridge.

Tools such as Astrology can be that bridge for those wanting a tangible tool that can explain the energy we radiate out & the energy we take in-- what we invest in & consume.

I believe in using a Holisitic approach to HOME and for me, Astrology has been the first tool to help me create spaces that feel like home & to feel at home within my body.

We're cultivating SANCTUARY at home focusing on the energetics, embracing all parts of you so your home feels safe, secure & solid.
