SOLAR ECLIPSE IN GEMINI

Gemini, ruled by **Mercury**, the planet of communication, our thoughts/ideas, language, and translation, is the sign of this **New Moon Solar Eclipse**. A time of **divinely orchestrated new beginnings** with **fresh insights**.

When the **Sun** and **Moon** meet in **Gemini** under **eclipse energy**, we are focusing on how we communicate with others, how we intake information, and share it with our community.

Sharing for the sake of sharing with **child-like wander**.

SOLAR ECLIPSE IN GEMINI

Sun/Moon in Gemini conjunct Mercury RX in Gemini

We're **revisiting** topics that we came across back around **May 19th** that need to be addressed. What needs to be **let go**? What needs our **raw honesty**? How can you confront these issues while remaining **grounded** in the present moment?

The topics **may** be intense, but remember that anything leaving at this time is **meant to be released**. Anything still around may need to be **re-evaluated** to allow for them to remain.

SOLAR ECLIPSE IN GEMINI

Sun/Moon in Gemini **square** Neptune in Pisces

With the Solar Eclipse in a **tense aspect** to **Neptune**, do not react, but rather **observe**. See what is coming up and **do not act immediately** as there's more to be revealed with time. Things aren't exactly as they **appear** so try not to **idealize** any topics or people that come up. Observe with **discernment**. Detach yourself and allow yourself to **feel** within what this all may mean by tapping in with your **intuition** and your **spiritual team** for guidance.

Your **vitality** and **emotions** may be low at this time.

Rest.

SOLAR ECLIPSE IN GEMINI

Mercury RX in Gemini **square** Neptune in Pisces

Mercury in retrograde is also squaring Neptune so it is necessary to **allow** your mind to change. Do not have a fixed way of seeing what is being presented. There are missing pieces or the pieces presented may be **distorted** to your vision at this time.

Step back and **meditate** on what is being shared. Also, this is a great time for a **social media break** to **refresh** and **recharge** your energy. Also, it is a time to tend to your **immune system**. Hydrate, eat grounding & electric foods.

SOLAR ECLIPSE IN GEMINI

Venus in Cancer Sextile Uranus in Taurus

You're more **social** than usual which is awesome! The connections you make now probably won't be **long-lasting**, but enjoy the **lessons** and **connections** they bring. Observe the type of energy these people bring and see how this can help you to change the way you **approach** relationships and the things you **value**.

Also, this is a great transit for **creatives**! Try **new** and **exciting** things. Allow yourself to be **inspired** through cooking, baking, art-making, decorating your home, planting, etc.

12° = Pisces Deg. (*illusion, compassion, dissolve, imagination*)

SOLAR ECLIPSE IN GEMINI

Neptune in Pisces **sextile** Pluto in Capricorn

There's a **shift** happening that is *out of your control* and is being **orchestrated** by the Divine. Allow all that needs to be released go without trying to hold on to it. These changes that are happening are for your **highest good** and for your well-being. Psychologically, you are **growing** and certain **beliefs** and **structures** you once had *faith* in no longer resonate with you. You may not understand this right away, but in time, you will be able to see why things had to happen this way.

If you are feeling called, seeking therapy can help you to adjust to this new chapter unfolding for you.

SOLAR ECLIPSE IN GEMINI

Saturn in Aquarius square Uranus in Taurus

Saturn and Uranus will **square** each other exactly for the second time this year on **June 14** and will make the last square later this year.

As they continue to square each other, there will be more moments of **constriction** and **contraction**, like **being in labor** before **giving birth**. We are **birthing** a new way of living that has **great potential**, but we first have to **shift our perspectives** and be open to necessary **structural changes**. Being rigid will only make this experience more painful.

Go along with the flow of the changing tides.

SOLAR ECLIPSE IN GEMINI

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

If you feel called, please share, save, and like this post!

My wish is that this helps you navigate the next 6 months and the rest of the year with more clarity and self-awareness.
