# SOLAR ECLIPSE IN SAGITTARIUS

Welcome to the second and last part of this **Gemini/Sagittarius eclipse cycle!** The last **Solar Eclipse** in **Sagittarius** we had was **Nov. 25, 2011.**

You most likely have felt the intensity of of the **Gemini Lunar Eclipse** with things coming to **completion**, **surprising news** that came in, and the reality of how strong your **faith** is and what **still** needs to be worked on.

23° = Aquarius deg. (freethinking, modern, innovation, society, organizations)

**Sagittarius** is ruled by **Jupiter**, the planet of expansion, faith, wisdom, higher education, excess, abundance, religious views and publishing.

Now, with the **Sun** and **Moon** meeting in this sign for a **Solar Eclipse**, we are being asked to **devote ourselves** to our faith and our expansion, but of course, *be careful what you wish for* because... you might just get it.

And the question next will be, are you *really* ready to receive it? Your foundation will continue to be tested to find out.

## MERCURY IN SAG SQUARE NEPTUNE IN PISCES

**Mercury** is conjunct (*next to*) the **South Node** (*what we are moving away from*) and both the **Sun and Moon** (*illuminaries*) in **Sagittarius**. With those energies **squaring** (*frustrating, difficult, pressure*) **Neptune**, the planet of **divinity, exaggerations, confusion, vision and wanderlust**, at home in **Pisces**, we may be getting in over our head about what we plan on doing next. At this degree, it's **critical** that we don't get **too carried away** or **too discouraged** with the visions/ideas that come at this time. Find a good medium of dreaming and taking action.

18° = Virgo deg. (CRITICAL\*): perfection, digestive health, service, analysis, the details

## MERCURY IN SAGITTARIUS TRINE MARS IN ARIES

Again, we have another aspect with **Mercury** so we really have to **focus** on **how we process our thoughts and communicate with others**. Meeting up with **Mars in Aries** in an exact **trine** (*energy moves with ease*) we are fired up and ready to take action and ready to communicate. At 20°, there's a **deeply passionate** emotion attached to this. Feelings may be **hurt** or there may be deep necessary **healing** from this exchange. It's all about the **intention** and **delivery**. **Be mindful.**

20° = *Scorpio deg (passion, intimacy, transformation, rebirth/death, beneath the surface)*

## VENUS IN SCORPIO SEXTILE JUPITER / SATURN IN CAPRICORN

**Venus** deals with **our values, money and relationships**. At 28° in Scorpio, we are **examining our wounds** around our **emotional security** in relation to **our values/self-worth** in regards to **money** and **our relationships**. **Jupiter** will **expand** this wound so we have no choice but to face it and **Saturn** will show us the karma attached to it. Saturn is at the last degree while Jupiter is approaching it. Before they meet up in **Aquarius** in a week, **commit** to identifying and healing the **root issues**. **Root & Sacral Chakra imbalances**.

*28° = Cancer degree (home, women, family, self-care, roots, nurturing, emotional security)*

## MARS IN ARIES SQUARE PLUTO IN CAPRICORN

This is not exact on this day but they are within a close degree. **Mars** is feeling amped up and impatient while **Pluto** stands firm in **Capricorn**. The energy to take action will be met with a **fundamental check** by **Pluto**, responsible for death/rebirth, and in **Capricorn**, it's a *traditional system* that in which we uphold that will have to **face the music**. **Reacting** how you *always* have will get you **backhanded**.

It's best you learn how to **respond**, not **react**.

23° = Aquarius deg. (society, sudden, shocking, freedom, rebellious, surprise)

## JUPITER/SATURN CONJUNCTION IN AQUARIUS (Dec. 21)

The moment many have been anticipating! We had a taste **Saturn in Aquarius** from **March 22nd - July 1st**. You can remember everything **slowed down**, people started making sourdough bread and, unfortunately, we were not "**all in this together**" as we anticipated. Now that we will be **re-entering** this transit with the addition of **Jupiter**, perhaps things can go differently now that **we have learned so much**. There's **wisdom** and **strengths** to be highlighted from the chaos that has been 2020. You know who your winning team is now.

1° = Aries deg (initiation, drive, aggression, impulsive, headstrong)

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

**If you feel called, please share, save, and like this post!**
