FULL MOON IN LIBRA

The **Moon** is in the sign of **Libra** which is ruled by **Venus**, the planet of beauty, aesthetics, relationships, and harmony. In the sign of Libra, there's an extra emphasis on balance and justice. The sun is in **Aries**, ruled by **Mars**, the planet of raw energy, drive, primal instincts, and stamina.

When the **Sun** in **Aries** opposes the **Moon** in **Libra**, we are tapping into our need for **balancing** our relationship with self and our relations with others. With the union happening at 8 degrees, we will need to be mindful of our pursuits as to not **burn** any valuable bridges with others.

Mind your words & energy.

8° = Scorpio Deg. (intimacy, regeneration, passion, resentment)

FULL MOON IN LIBRA

Moon in Libra opposed Chiron & Venus in Aries

Not only is the **Moon** meeting with the Sun, but it is also meeting up with **Venus** (*Libra is ruled by Venus*) and **Chiron**, a minor planet representing the *Wounded Healer*. There's a chance that **old wounds** will come to the surface to be examined. It's important to be **levelheaded** in order to resolve/tackle the issue. **Cooperation, unity, refinement,** and **direct action** will be necessary as well as examining any **haunches** you may have about a situation.

Take deep breathes. Work on responding, not reacting.

** Sun, Chrion & Venus will **sextile** Saturn (11°) so there's a level of **discipline & maturity** needed to resolve this wound.

8°= Scorpio Deg. (*intimacy, regeneration, passion, resentment*)

FULL MOON IN LIBRA

Moon in Libra **trine** Saturn in Aquarius

There's an emphasis on **socializing** and a need for **emotional balance** in **partnerships** and **cooperating** with others. It will be easier to verbalize your **boundaries** as long as you do so from a grounded place.

Are you willing to make **compromises**? Are you forming **barriers** around yourself in **fear** of being seen or disappointed? Is it time to call a **truce**?

11° = *Aquarius Degree (reform, progressive, community, social networks)*

FULL MOON IN LIBRA

Mars in Gemini conjunct North Node in Gemini

Mars meets up with the **North Node** making us **ambitious** and ready to **get what we want**. Don't forget to have some **fun** and enjoy the **beauty of the journey** in the pursuit of your goals.

Along with the energy going on between the Sun, Venus & Chiron, it can be helpful to do some **breath work**, getting **grounded** in nature, or any other grounding practice with **your hands** or **speaking/writing** as Mars meets up in a **tense aspect** with **Neptune** as we approach the **New Moon in Aries**.

14° = Taurus Degree (beauty, finances, values, Earth, throat)

FULL MOON IN LIBRA

Mars in Gemini Trine Saturn in Aquarius

On Mar. 22, Mars and Saturn made an **exact trine** and are still in a close orb to each other. There's a sense of **direction, alignment**, and lots of **mental stimulation**. This is great energy to work with since you can make **progress** on your goals/work as long as you have proper **boundaries** in place to **support** it.

Magician energy (as above, so below).

Be inspired. Move ahead.

11° = Aquarius Degree (reform, progressive, community, social networks)

You don't have to know all the answers, but opening yourself up to pondering these types of questions will **allow** you to experience the answers. Through the experience, you'll learn the answers and will begin to **integrate** them into your life over time.

There may be some **challenging** conversations needing to be had and it's important that you **listen** to **understand** and not just to respond.
