FULL MOON IN VIRGO

The sign of **Virgo**, traditionally ruled by **Mercury**, is where this **Full Moon** will be opposing the **Sun in Pisces**, traditionally ruled by **Jupiter** & in modern Astrology, it is ruled by **Neptune**. This is the last Full Moon of the astrological year (*the new year begins with Spring*).

Did you plant seeds during the **New Moon in Aquarius** two (2) weeks ago? This Full Moon will reveal the **harvest** or the **opportunities** to plant new seeds during the next **New Moon in Pisces** on March 13th.

FULL MOON IN VIRGO

Sun Oppose Moon (Virgo/Pisces Axis)

- The Virgo/ Pisces axis talks about the importance of balance in our physical health and spiritual health, the attention to detail, and the attention to our intuition to go with the flow.

Go with the flow, but pay attention to what comes up as there may be a deeper message that you may miss if you are moving too quickly. Your intuition is loud, listen. Do not second guess it.

8° = Scorpio Degree (regeneration, endings, passion, mystery)

Moon in Virgo trine Uranus in Taurus

- If you are feeling the urge to make a change, to shake things up at home, with your finances, or maybe with your work routine, listen to it. What can you do to create more flexibility in your life? What can you do to create more harmony?

Expect the unexpected. Just because you couldn't plan for something doesn't mean you are not ready. Sometimes a roadblock is just redirection. Mercury is still in its post-shadow phase until March 29th.

7° = Libra Degree (partnerships, balance, law, justice, fairness)

FULL MOON IN VIRGO

Mercury in **Aquarius** **conjunct** Jupiter in **Aquarius**

Mercury and Jupiter meet up again in Aquarius, but this time, Mercury is direct and is at the same degree as they were on Valentine's Day. It might be time to initiate that idea, project, or collaboration or at least take steps to write it out in more detail. Also, expect some more insights coming to you to support this endeavor in the form of someone in your community, friends, or even an acquaintance.

No matter how the idea sounds, if you can see it in your mind's eye, it can become a reality.

13° = Aries Degree (impatience, initiate, pioneer, energetic, cerebral)

FULL MOON IN VIRGO

Mars in Taurus **Trine** Pluto in Capricorn

As Mars makes its way out of Taurus, the sign of values & personal resources, it aspects Pluto in Capricorn, the sign of responsibility, & reality. This transit will allow you to make substantial moves in your life and the world around you if you use the energy wisely.

Keep in mind the needs of society as you take tangible steps to transform your life and others for the long-run and for the better.

25°= Aries Degree (temperament, haste, aggressive, initiate, force, leadership)
